The ecologist singer

Dear Lisa,
I've been thinking about my future, like when I grow up. I was thinking about what I will become when I grow old. Before, I was thinking about being a doctor, then I changed my mind and then I said: "Oh, what about teacher". But, I can't figure it out… But when I think about being a singer, I feel like it's the one, so maybe I will become a singer or a songwriter. And there is this one thing that I wanna do, I really like to draw realistic people, animals, plants, world and anything. I also have this dream about going to a country I was thinking about. I wanted to go to Spain, to Italy, Los Angeles, Canada, Mexico, Thailand and many more countries. I also dream about travelling all around the Philippines, I wanna see what's in here! And I've been thinking about telling people to stop throwing trash everywhere. I hate to see them doing that, especially when it comes to animals, I hate it so much! When they leave them like a shit, throw them like trash, I feel so betrayed. I know it is so hard to make them stop because they won't listen and it's hard! But I will soon stop them, I promise.
Love,

Mariz

Never give up

Dear Lisa,
I am so grateful and lucky with my life today. I feel happy that people are so kind and generous. In today's society I see love, happiness and peace everywhere, in which people are trying to connect to each other to create unity and happy vibes to be together. They are all good and successful. In the future, I want myself to do the same. I will achieve my goals and always be happy. I will become a good role model for the new generation to follow. I will continue to help other people so that I will forever stay happy. I will always remember that I will never forget the people who helped me because they are the ones who made me good and happy. I will always pray for them and wish them a very wonderful day. In the future, I will make myself an inspiration to others. I will try my best to become a good citizen here in the Philippines. I will continue to work hard to work on my dreams. I will never give up. I just wish for myself and for my future to always be kind. And so, Lisa, if you want to have a good future, start your journey with me!

Fear of the future

Dear Lisa,
So basically I don't know what I really want in future, also the course that I'm taking, so let's just say that my future is

undecided. But if I could just decide now, I want to study outside the country because I want to do more challenging stuff, but what is not great in it is that I don't want kind of job that I will also apply for my studies also, the thing also is that I'm scared of the people who I will encounter, like strangers, also I'm scared to be alone, but yes, I understand that it's but of our life to stand on…
But yes, I will try, so I want to travel and experience many things. I love taking photos and looking others "arts". I also want to help people who are in need. But, I just wish one day I will find out what my interest is, so that I won't shift to anything I could focus on. I know there is a lot of things I want to do just like I want to fight for people who are innocent, I want them to be free, also about others gender and especially for those people who were not able to get a job, because they didn't finish college, I want that to be changed, I know it's nice that they are graduated but people can't afford for their schools, they shouldn't judge people because I know that each one of us have our unique talent and skills. I also like designing, it's just that I'm shy to show my design. I'm not yet confident on it. So, I want to find out what I basically want and I want to finish my studies.

More than one dream

Dear Lisa,
How are you? I know that you are just my imaginary friend, but I don't care about it. I want you to know me well!
Hi, my name is Princess N. Tinio. I live in the Philippines and I'm 13 years old. In my future I want to be a dancer or a model and also my favorite colors are pink, white, red, black and purple. My hobbies are reading, writing, sleeping, playing, jogging and my favorite foods are fried chicken, eggplant and any meat. My favorite countries to go to are

Canada, America, France, England and Australia. I just want to be alone and study at Holy Cross.
I hope I can meet you in my dream, Lisa! I know you've never been here in the Philippines. Here is different from other countries. It's nice here to have a vacation like going to the mountain. The weather here has two possibilities, it's only dry or wet, that's all. I hope you will like it here.
